

## 10. DODAWANIE W SŁUPKU

$$31 + 32 + 25 = \dots\dots\dots$$

A vertical addition template consisting of three columns of dashed lines. The first column has two lines at the top and one at the bottom. The second column has four lines: two at the top and two at the bottom. The third column has five lines: three at the top and two at the bottom. A horizontal line connects the middle line of the first column to the middle line of the second column, and another horizontal line connects the bottom line of the second column to the bottom line of the third column. A plus sign (+) is positioned above the first column, and an equals sign (=) is positioned below the third column.

$$11 + 54 + 32 = \dots\dots\dots$$

A second vertical addition template, identical in structure to the first, consisting of three columns of dashed lines. It is intended for the second addition problem: 11 + 54 + 32.
